EDUCATION

Universiti Malaysia Pahang Al-Sultan Abdullah *October 2022 – November 2026 (Expected)*

Bachelor of Computer Science (Graphic & Multimedia Technology) with Honours

- CGPA: 3.88/4.00
- Awards: Anugerah Pro-Canselor, FYP Silver Award (FYPro-Com), Dean's List Recipient (7 Semesters)

EXPERIENCE

Koson Technology Sdn. Bhd *March 2026 – August 2026*

Software Engineering Intern

Westara Technologies Corporate Website

- Designed UI prototypes and website layouts in Figma based on project requirements and feedback communicated by the team leader.
- Translated approved UI designs into responsive web pages using WordPress and Elementor, implementing layouts and design elements according to project requirements.

MIQ (Management Integration Quality)

- Designed relational database schemas and developed REST API endpoints using Express.js, with Postman for testing API requests, responses, and endpoint functionality.
- Developed Vue.js frontend components and integrated backend APIs to implement system features based on project requirements.

PROJECTS

BioAR: An Augmented Reality Application for Learning Biology — Final Year Project

Unity, Photon Unity Networking (PUN), Augmented Reality (AR), C#

- Developed an interactive AR learning application using Unity and C#, enabling students to explore biology concepts through 3D visualizations.
- Implemented multiplayer functionality using Photon Unity Networking (PUN) to support collaborative learning interactions.
- Received a Silver Award at the Final Year Project Competition Exhibition (FYPro-Com), Faculty of Computing, UMPSA.

BettrHelp — Academic Project

Figma, Android Studio

- Designed and implemented UI for assigned modules including login, registration, and mood tracking, ensuring visual and functional consistency with team designs.
- Integrated speech-to-text functionality for mood input within the mood tracking module, supporting accessibility and ease of use

UMPSA Koop Printing Management System (RapidPrint) — Academic Project

HTML, CSS, Bootstrap, PHP, MySQL, JavaScript

- Developed responsive frontend interfaces for login, registration, package management, branch management (CRUD), and dashboard modules using HTML, CSS, Bootstrap, and

JavaScript.
- Developed PHP/MySQL backend functionality to manage system data and support administrative operations.

EXTRACURRICULAR ACTIVITIES

UMPSA x HUAWEI AppGallery Mobile App Competition *September 2024 – November 2024*
Head of Multimedia Department
- Led the multimedia team in planning design deliverables, assigning tasks, and monitoring progress to meet competition deadlines.
- Coordinated with team members and organizers to ensure timely delivery and maintain a smooth production workflow.

MLBB: Rise of Champions Tournament *September 2023 – November 2023*
Head of Multimedia Department
- Managed multimedia production workflow including UI design, promotional materials, and live-streaming assets.
- Collaborated with technical team to ensure design feasibility and consistency

SKILLS & LANGUAGES

Programming: JavaScript, PHP, HTML, CSS
Frameworks & Libraries: Vue.js, Laravel, Express.js, Bootstrap, Tailwind CSS
Database: MySQL, PostgreSQL
Web & Development Tools: WordPress, Postman, Git
Design: Figma, Adobe Illustrator, Canva
Others: Unity, Photon Unity Networking (PUN)
Languages: Chinese (Native), English, Bahasa Malaysia
